Business Continuity Planning

Cantella & Co., Inc. has developed a Business Continuity Plan to respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions is unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information about our Business Continuity Plan.

Contacting Us

If, after a significant business disruption, you cannot contact us as you usually do at (800) 333-3502, you should go to our web site at www.cantella.com. If you cannot access us through either of those means, you should contact the investment company that carries your account

Our Business Continuity Plan

We plan to quickly recover and resume business operations after a significant business disruption and to ensure the safety of our employees. Our Business Continuity Plan is designed to permit our firm to resume operations as quickly as possible, given the scope and severity of the significant business disruption. If you have questions about our business continuity planning, you can contact us at (800)652-8358. A summary of our plan is available at any time upon written request, and is also available on our web site.

Varying Disruptions

Significant business disruptions can vary in their scope; for example, a disruption affecting only part of our firm, one affecting our building, or one affecting a more widespread area. In the case of a localized disruption (one with a scope of our building or smaller), we will transfer affected operations to a local site when needed and expect to recover and resume time-critical functions within 60 minutes. In the case of a more widespread disruption, alternate transportation, communications, effects on our clearing firms, and other factors will affect our recovery time. In either situation, we plan to continue in business, transfer operations to our clearing firm if necessary, and

notify you through our web site (www.cantella.com) or our main telephone number how to contact us. If the significant business disruption is so severe that it prevents us from remaining in business, we assure you that our clearing firms will grant you prompt access to your funds and securities. For more information – If you have questions about our business continuity planning, you can contact us at (617) 521-8630. This summary of our plan is available at any time upon written request.
